TROUBLE OF A COMMITTEEMAN

I met a very funny man
 While walking down the street,
 He wandered round from side to side,
 And stumbled o'er his feet.
 He spun around in circles
 And he stood upon his head;
 I stopped to watch him as he passed
 And thereupon he said:

"Now Wilson can beat Johnson
 "And Johnson can trim Wright
 "While Wright gives Wilson thirty
 "And trims him every night.
 "The three of them skin Smith, who
 runs
 "Three hundred in an hour.
 "He also often gets well trimmed
 "By little Willy Gower.

"Yet Smith is minus fifty
 "And Willy's plus fifteen,
 "So Smith is feeling very sore
 "And says its low and mean,
 "While all the rest are grousing
 "And raising such a fuss,
 "I went and drowned my woes in
 drink,
 "And now don't give a cuss."

At last I caught his meaning,
 Though difficult to see,
 I said, "My friend, what handicap
 "Did they hand out to me?"
 He said, "You're minus eighty,"
 And thereupon I swore,
 Now listen friends to my complaint,
 No wonder I was sore.

I play Jones just even
 And he is quite my match,
 Yet I get minus eighty,
 And Jones is put at scratch.
 While Ray beats Jones quite easily,
 And yet gets trimmed by me;
 The thing is palpably unjust,
 As anyone can see.

I'd like to throw you in the lake
 Or roll you down a hill.
 He said "You always used to kick,
 And so you're kicking still."

Now since I heard you asking
 Why then this verse is meant,
 For the men who gave the handicaps
 In the Billiard Tournament.

ANNOUNCEMENTS

ATHLETIC ASSOCIATION EXECUTIVE NOTICE.

An important meeting of the A. A. Executive will be held in Strathcona Hall on Wednesday, February 14th, at 5 o'clock sharp.

H. L. EDWARDS, Sec'y.

The Yale hockey team defeated the St. Nicholas Club of New York, last Saturday, after an extra period of play. Martin notched the winning point, making the score 3 to 2.

He—Dearest, you're the goal of my affections.
 She (removing his arm)—Five yards for holding.

MR. DAN P. GILLMOR IS NON-COMMITTAL ON HIS CANDIDATURE

Football Hero Uncertain Whether or Not he Will Stand

On being interviewed last night by a representative of the Daily Mr. Dan Gillmor, who has been spoken of as a candidate for the presidency of the Students Council, had very little to say regarding the matter. Mr. Gillmor said in part that all he knew of it was that which had appeared in the Herald and which had mentioned him as a probable candidate. He had no statement to make at present but if he should have the honor of being nominated as a candidate for the presidency he would then have a statement for publication with regard to his platform.

IMPORTANT MEETING OF HEALTH LEADERS TO BE AT MCGILL

Physical Education Association will Convene Here This Week

This week McGill will be the scene of one of the biggest annual conventions in America. The American Physical Education Association has representatives from all the cities and centres of the Continent. The recognized leader of the movement is Dr. Tair McKenzie, well known as a world-authority on Physical Education, particularly in colleges.

The official programme of the Convention is as follows:
 PROGRAM OF THE NINETEENTH CONVENTION OF THE AMERICAN PHYSICAL EDUCATION ASSOCIATION.
 February 22, 23, 24, 1912—Montreal, Canada.

Under the distinguished patronage of their Royal Highnesses the Governor-General and the Duchess of Connaught.

Programme Committee—R. Tait McKenzie, M. D., Chairman; F. W. Harvey, M. D.; W. A. Stetchee, Baroness Rose Posse, Therapeutic Section.

Prof. A. A. Stagg, Society of Directors of Physical Education in Colleges.

A. E. Kindervater, Public School Physical Training Society.
 Lory Prentiss, Secondary School Society.

J. H. McCurdy, M. D., Secretary National Association.

Citizens Committee—Lord Strathcona and Mount Royal, Honorary Chairman; Principal Peterson, Chairman; Dr. F. W. Harvey, Secretary; Archbishop Bruchesi; Bishop Farthing; Sir Montagu Allan; H. B. Ames, Esq.; Rev. Dr. Barclay; T. H. Birks, Esq.; Gordon Bowie, Esq.; Lt.-Col. G. J. Burland; Lt.-Col. J. W. Carsen; Lt.-Col. F. M. Cole; A. W. (Continued on Page 3)

GREAT INVENTIONS SUBJECT OF DEBATE AT HISTORICAL CLUB

Interesting Papers and Live-ly Discussion Feature Meeting

GREAT INVENTORS DISCUSSED AT HISTORICAL CLUB.

The Historical Club met on Thursday, the 8th, to discuss great inventors. Before the papers there was some business during which it was announced to the club that Mr. Klein, President of the Harvard Historical Society, was to visit the McGill Society at the next meeting, February 22nd.

Three papers were read. The first was on Gutenberg by Mr. A. G. Fisher, who, in an interesting manner, discussed the life of Gutenberg and the invention of printing. The speaker began by pointing out that the printing press has been one of the greatest aids to the advance of civilization. Concerning the actual invention of the press there is some doubt. The glory of inventing it is contended for by the partisans of four men of whom Gutenberg and Coster seem to have the chief claim. Mr. Fisher gave an outline of the chief arguments on both sides, the balance of which seemed to rest in favor of Coster, but he concluded by saying that since the controversy has been carried on without any conclusion for four hundred years there is still room for much enlightenment on the subject.

The next paper was read by Mr. H. H. Heming, who gave the Club a very interesting paper on Galileo. He started in by reviewing the state of scientific knowledge up to the time of Galileo, saying that the Aristotelian theory had held chief sway, the only other theory was that of Copernicus, which Galileo upheld. Galileo was born in 1564. He entered the University of Pisa to study Medi- (Continued on page 3.)

INTERMEDIATE GAME AT ARENA TO-NIGHT MEANS LOT TO TEAM

R. M. C. vs. McGill Should Prove Fast and Interesting Game

The game tonight promises to be one of the best exhibitions of intermediate hockey on record. Both teams are in the pink and are admittedly the strongest intermediate teams that ever represented the two colleges. The dope up to date is as follows: R. M. C. has beaten Queen's seconds in their home and home games by the aggregate score of 27-3. McGill seconds have defeated Laval seconds in two games, the aggregate score being 10-1. Both teams have a clean record so far this season and will play their heads off to win tonight. McGill, however, has the edge on the Cadets in the matter of condition and experience, to say nothing of stick-handling with such men as Gillmor, Ryley and Davidson playing and should manage to hand the Kingston boys the small end of the score. A large crowd should be on hand to support the team, as the winning of this game may mean the Championship.

It is not known as yet how the McGill team will line up, but Manager Argue on being questioned by a representative of the Daily stated that it would be picked from the following: Mann, Gillmor, Kindall, Foreman, Davidson, Ray, Ryley, Williamson and McGill.

Teacher—"The three boys in the front seat were the only ones to get the correct answer."

Voice (from the rear)—"Good team work, boys."

Do nuts grow on trees?
 They do.
 Then what tree does the doughnut grow on?
 The pantry.

QUEEN'S MEN PROVE VERY GOOD LOSERS TREAT MCGILL WHITE

The Spirit Shown at Kingston Worthy of Special Appreciation

The McGill Hockey Team have won their third straight game in the Intercollegiate series. Queen's fought hard, and held McGill well in the first half, but McGill's superiority was palpable after the intermission. The three-man defence game proved wonderfully efficient, and Queen's forwards bucked themselves to pieces on Rankin, Hughes and Masson, while every little while McGill's forwards got away and scored.

The Queen's trip was eminently satisfactory from every standpoint. The boys went down determined to win, and they met some hard fighters and in every way, splendid losers. The way the Queen's men treated us was the personification of the true sportsmanlike spirit.

The basketball team played in a hall crowded with Queen's men, who rendered the McGill yell with just as much zest as they did their own. The spirit which prevailed the gymnasium was that of good fellowship. Not an uncomplimentary or derogatory phrase was heard. The usual hoots, yells and cries of "put him off" and "dirty play," which usually characterize such a crowd were absent—and although the Queen's team was beaten badly, they were ready to pat the McGill men on the back and say: "You deserved to win."

In the hockey rink that night Queen's greeted the McGill boys with the greatest enthusiasm. McGill yells were given in excellent time, and so lustily rendered as to deceive one into thinking it was a McGill home game. The Queen's team went on the ice determined to use their last chance well, to break into the winning list. They lost but lost like (Continued on page 3.)

THE IMPORTANCE OF FRIDAY NEXT

Next Friday will be a great day around McGill. Not for a good many years have we been privileged to determine two championships on the same day. At 5 o'clock Friday afternoon, McGill will meet Toronto in the basketball final for first honours in the Intercollegiate league. Although our gymnasium facilities are sadly deficient and can but ill accommodate a large crowd, still it is only reasonable to expect a goodly number of rooters to see the McGill Five to victory. The game is bound to be a hard-fought one from start to finish and connoisseurs at sport will receive all the thrills and excitement they may covet. Mel Brock and his team have the prestige of last year's championship and a victory this year, but Tiny Calder and his pets are none the less daunted.

Now, consider Friday night and what its issue involves! With a clean sheet of three straight victories McGill will encounter Toronto in the last and deciding game of the Intercollegiate series. According to the "dope" McGill should be winner by a fair margin, but it is generally recognized that so-called prophecies very seldom prove correct when it comes to determining the issue of hockey games, and particularly Intercollegiate games. It will be almost a month since the Red and Blue last met. During that time there have been great changes. We have assistance that as far as Toronto is concerned the team is vastly superior on general condition and team-work. Fortunately the same can be said of McGill. Thus the teams should go on the ice with the odds about even.

Now is the time for the rooters to work with a vengeance and duplicate what they accomplished in the football season. Their organization is complete. A schedule of practices has been drawn up and will be bulletined by the McGill Daily on the Campus each morning. Watch that bulletin, you McGill men, and do not lose a single opportunity of getting well prepared for the big game!

THE DEBATING CHAMPIONSHIP

The final debate of the Intercollegiate competition is at hand. Two weeks more and three championships of importance will be decided. The results of all are of vital importance to McGill, but none more than the debate. It has been a whole decade since McGill debaters have been successful in carrying off the laurels. The conclusion to be drawn by uninitiated outsiders is apparent. We must break into the list of winners again.

The subject—"The Irish Question"—is one which is in the full blaze of the public eye, one in which every one is interested, and whatever the result of the debate, the question will receive a full and comprehensive treatment at the hands of the four intercollegiate speakers. The ability of our opponents as debaters is well known, but the debate is a home one, which should count for much. The question lies with the student body as to whether full advantage will be taken of this handicap. On the night of the debate we want to see the Union auditorium crowded to the doors with enthusiastic McGill supporters. We want to see the same sportsmanlike spirit which Queen's has shown on every occasion when we have met them. If this is done—and our orators have a logical argument—we should not be doubtful of the issue.

BUNSEN BURNERS BETTERED BY BOLD BELLICERENCY

Unique Organization Forms
Second Team

The Bunsens have been training faithfully and they have every prospect of trimming Ormstown in their big debuting fixture a week from today.

The Executive has enjoyed such a marked degree of financial success in connection with the recent tours of the Senior team that they have finally decided to put another team in the field and tour the States giving exhibitions of Canada's winter pastime. The first team leaves for Ormstown next Sunday. Secretary Stewart announces the line-up as follows:

Goal—Warwick or Creaghan.
Point—Tea-Bone Lynch.
Cover point—Pruneh Roberts.
Rover—Quiller Graham.
Left wing—Whop Stewart.
Right wing—George Brophy and Pud Argue.
Centre—Billy Wilson.

The second team idea may be ascribed to the fertile imagination of Tea-Bone himself. After considerable difficulty an intermediate squad was gathered together and the personnel of the new team announced as follows:

Goal posts—Rowe Holland and

Herb Walker.

Goal—E. Broken Reed.
Point—Henson.

Cover point—Scheeziks.
Left wing—McInnes.
Right wing—Jad Crossfield.
Centre—Harry Hull.
Rover—Hance McKeen.
Spares—Hal O'Shaughnessy, Harold Coates, Bert Hodge, Ken McCrimmon, Sid Kirby, Andy Davies.

Coach and Inspirer—Mr. Tea-Bone. Interviewed by a Daily reporter on Sunday, Secretary Stewart stated that as a result of last Monday's executive meeting, Hull's dome was all caved in, but that Brophy's countenance was well so far as he could see with his new microscope. Saturday's combined practice of the teams was very gratifying. Scheeziks had swept his pool thoroughly and piled all the balls at one end. A strong southerly breeze helped the goal tenders considerably. Shortly before half time Jack Crossfield slipped and in a rapid descent to the ice, smote Harry Hull full on his injured cranium. Harry thereupon also descended spirally and with native instinct beat up on his cover. A few pleasant interchanges of friendly blows added tone to the practice. Tea-Bone finally intervened in the cause of peace.

Incidentally it was learned that this year's Bunsens are slow in paying the customary twenty-five simoleon fee. The charter members to

SHOTS ON COAL

To many onlookers it seems hard that our team must win all four games this year to secure first place in our section of the Intercollegiate Hockey League. Our team has done well, remarkably well, and in any other year would have the championship well within its grasp. But the fates have ruled it otherwise; decreeing that we must go through the season with a faultless score. The task, though a hard one, in no way appals us. We have defeated Varsity on her own ice, and our team realizing the nature of the crisis on Friday night, is preparing for the battle with vim, hope and determination. The chances of a win were never better. Our team is not over-confident; we respect the prowess of our Toronto friends, yet we are determined to defeat them, and every McGill man may be depended upon to do his part. The man who does not must face our manager, and our respect for him is even greater than that which we hold for the combination of the Blue and White.

The Yale Swimming Team won an overwhelming victory from the C. C. N.Y. team, last Saturday, in Carnegie Pool, New Haven. The score was 48 to 5. Their polo team had another easy victory by 45 to 5.

The Royal Military College of Canada

There are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to officers and Cadets of the Canadian Militia. In fact it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercise of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent force are offered annually.

The diploma of graduation is considered by the authorities conducting the examinations for Dominion Land Surveyor to be equivalent to a university degree, and by the regulations of the Law Society of Ontario, it obtains the same exemptions as a B. A. degree.

The length of the course is three years, in three terms of 9½ months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College, takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination, and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont.; or to the Commandant, Royal Military College, Kingston, Ont.

THE BILLIARD TOURNAMENT ATTRACTS MUCH INTEREST

Almost Thirty Entries for Annual Event—Full List of Handicaps Announced

The sole topic of conversation around the Union these days is the approaching billiard tournament and its probable results. The committee in charge made official announcement of the rules and handicaps yesterday afternoon.

They are as follows:

First round opponents are indicated by grouping:

Hunkum (85) McKinnon (60)
J.L. Gordon (105) Hannington (30)
J. B. de Hart (15) Buckley (40)
Holland (115) Jackson (55)
D. Crewdson (60) Crosby (75)
C.D. Wilgress (105) J.H. Clarke (50)
B.E. Atkins (10) N. Prentiss (65)
C. Graham (30) D. Bremner (95)
K. H. McCrimmon (85) G. Brophy (50)
H. D. Grant (115) M. Gordon (15)
J. McDougal (75) Pud Argue (50)
H.D. Graydon (55) Willisroft (15)
W. Connelly (50) W. J. Wilson (65)

QUEEN'S MEN PROVE

(Continued from page 1.)

The remarkable sportsmanlike character displayed by Queen's University on Friday is worthy of special note, when one realizes that they have experienced a run of hard luck this year, and lost every intercollegiate game, football or hockey. Rather than becoming cowed and depressed, the team and supporters displayed the attitude of a winning aggregation—and every man of the McGill team on their way home remarked on the sportsmanlike spirit shown by their opponents. Here's to Queen's as sportsmen, and may your luck be better next year.

It remains now for McGill to beat Toronto. Two Championships are at stake next Friday night, and McGill has got to win. If every hockey and basketball player takes this attitude the issue will not be doubtful.

RULES AND REMARKS.

1. The game shall be two hundred and fifty (250).
2. The loser shall pay for the table.
3. The games shall be played on tables 1 and 2.
4. The contestants shall appoint their own referee.
5. The contestants shall have first choice of any table whether or not any one has their name on the slate, but will not be able to take a table if some one else is using it until the expiration of the latter's time.
6. Three prizes will be given.
7. The first round must end by Saturday, Feb. 17th.

H. SKEEZIKS.

Places of Meeting—McGill University Medical School, University St. and Pine Ave; Royal Victoria College, Sherbrooke St., and the Montreal High School, Peel St.

THURSDAY, FEBRUARY 22, 1912.
Therapeutic Section—Medical Building, McGill University.

10.00 a. m.—"Mechanical Treatment of Joint Diseases," Max Walter, Ph.D., Pennsylvania Orthopaedic Institute.

10.30 a. m.—"Physical Training in the Treatment of Neuroses," Dr. B. E. McKenzie, Toronto. Discussion led by E. B. Arnold, M.D., New Haven, Conn.

11.00 a. m.—"Diagnosis Recti," Dr. Fred W. Harvey, McGill University, Montreal.

11.30 a. m.—"External and Internal Anomy," Dr. MacKenzie Forbes, McGill University and Children's Memorial Hospital.

FRIDAY, FEBRUARY 23, 1912.
Afternoon—Montreal High School, Peel Street.

Chairman—The Rev. Dr. James Barclay.

2.00—4.30 p. m.—Demonstration of Physical Exercises by girls of Westmount Schools, Aberdeen School, High School for Girls, Miss Edgar's School, Students of Macdonald College and the Royal Victoria College.

4.30—6.30 p. m.—Skating rinks will be open to visitors. Exhibitions of Curling and Skating. The Curling Championship of the Association.

FRIDAY, FEBRUARY 23, 1912.
Evening—Montreal High School, Peel Street.

8.00—9.30 p. m.—Demonstrations of Physical Exercise by boys of Westmount Schools, Mount St. Louis Cadets, Montreal Amateur Athletic Association, Lower Canada College, High School, Montreal Y.M.C.A.

Public School Section—Medical Building, McGill University.

10.00 a. m.—"Athletics for Girls," G. Wittich, Public Schools, Milwaukee, Wis.

10.30 a. m.—"How Fast Should Girls and Boys in the Elementary Schools Run?" V. A. Stecher, Public Schools, Philadelphia.

11.30 a. m.—"How can the School Complete the Play Life of the Child?" Ernst Hermann, Public Schools, Cambridge.

General Meetings—Medical Building, McGill University.

2.30 p. m.—"The Value of Games of Imagination," E. H. Arnold, M.D., New Haven, Conn.

3.00 p. m.—"An Educational View of Physical Training," J. A. Dale, Professor of Education, McGill University, Montreal.

3.30 p. m.—"The Lord Strathearn Trust for the Introduction of Physical Training in Canada."

4.30 p. m.—Tea and an Exhibition of Fancy Skating at the Victoria Rink by the Earl Grey Skating Club, President, Mrs. Henry Joseph.

8.00 p. m.—Reception at the Royal Victoria College. Address of Welcome by President William Peterson of McGill University. Presidential Address, Dr. R. Tait McKenzie, University of Pennsylvania. Address by Col. the Hon. S. Hughes, Minister of

Militia and Defence. Address, "The National Significance of Athletic Sports," Dr. Luther Halsey Gulick, Russell Sage Foundation.

FRIDAY, FEBRUARY 23, 1912.
College and Secondary Schools—Medical Building, McGill University.

10.00 a. m.—"Physical Education at Princeton" Dr. Joseph E. Rayeroff, Professor Physical Education and Hygiene.

10.30 a. m.—"The Combination of Social Life with Physical Training at the University of Toronto."

11.00 a. m.—"Physical Education at Queens University."

11.30 a. m.—"The Extension of Athletic Sports to the whole student body at Amherst," Paul C. Phillips, M.D., Amherst College.

12.00 p. m.—Business Meeting of the National Association.

1.00 p. m.—Lunch, Meeting of the Council.

Public School Section—Medical Building, McGill University.

10.30 a. m.—"Heredity and Environment," Carrie M. Derrick, M.A.

11.00 a. m.—"The Teaching of Hygiene in Public Schools," Ethel Hurlbatt, M.A., Warden Royal Victoria College, Montreal.

11.30 a. m.—Business Meeting.

9.45 p. m.—Fancy Dress Carnival on the Montreal Amateur Athletic Association's Rink, Westmount.

SATURDAY, FEBRUARY 24, 1912.
General Meetings—Medical Building, McGill University.

10.00 a. m.—"The Ventilation of Gymnasiums," by Prof. G. B. Adick, Professor of Hygiene, Y.M.C.A. Training School, Springfield. Discussion led by Professor Starkey, McGill University.

10.30 a. m.—"Fatigue," Dr. Aleck, Professor of Physiology, McGill University.

11.00 a. m.—"The Place of Gymnasiums in the Curriculum of a Normal School of Physical Training," Baroness Rose Posse, Posse Gymnasium, Boston.

2.30 p. m.—Open Amateur Competition. Montreal Skiing Club, for the Championship of Canada, Mount Royal Park, Tobogganing, Park Slide, Skating, M.A.A.A. Rink, McGill University Rink and City Rinks.

8.00 p. m.—Torch light parade by show shoe clubs in costume.

Note—The public are cordially invited to the lectures.
Admittance to Reception and Demonstrations by invitation only.

MORE ODDS AND ENDS

1 To err is human but not to be indulged in Friday night.

2 What must be done can generally be accomplished if that fact is realized.

3 Toronto may have a good team but—

4 George—You shouldn't do anything rude, the power does not like it.

5 We have heard of immovable objects, but oh you six-footer!

6 The hardest thing on the nerves (of the other fellow) is Ramsey's reach. To have one's best dreams consistently crushed by that cruel stick is, to say the least, demoralizing.

7 Grey's speed and shooting as well as his place in the famous four-man defense make him conspicuous. Good boy, Grey, keep it up!

8 Billy Wilson will be back in the game again this week. His injured elbow is steadily improving and he will be o. k. again before the end of the week if he is careful.

9 "Captain" Thompson surprised the Queen's goal tender into a smile by his neat goal from a face-off before the nets on Friday night. "Tommy" had them all guessing how it was done. Ask Varsity.

10 That was a good game, Jerry. A little more combination and the best of them will have to hustle.

11 Skinch was there with all his ability and then some. He worked hard. That's the dope. Keep it up!

12 "Banty" is "fit" again and will be hard at it this week in practice.

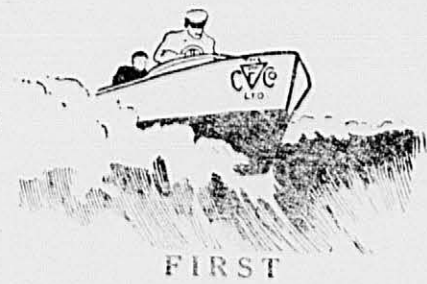

13 Bill Hughes is wrought up to a high pitch of excitement over the game next Friday night. He is determined to save up every bit of energy for a great effort.

Judge (to prisoner who is an Irishman)—Are you guilty or not guilty?

Prisoner—Faith and begorra, that's what you're paid to find out.

GREAT INVENTIONS

(Continued from page 1.)

close, which being distasteful to him, he took up study of mathematics, often refuting the argument of his professors. He obtained professoriate in University of Pisa in which town he tried his famous experiment of falling bodies. He was compelled to leave Pisa and entered college at Padua but returned later to Pisa. He now began to be persecuted by the Church and was taken before inquisition. He died in 1642. He was the first to direct telescope on heavenly bodies and spread over his whole life were investigations of laws of motion.

The last paper on James Watt was ably dealt with by Mr. G. F. Dewey. The essayist drew a sketch of this inventor's life, giving a short account of his chief inventions. Watt was born in 1736. He was the son of a mechanic and thus during his whole life he was associated with mechanics. He was a precocious boy and early showed signs of mathematical tendencies. When a young man Watt was apprenticed in London but worked too hard so that he had to return home. He worked most of his time at his trade, that of mathematical instrument maker. The first experiment in steam, however, was not until 1761 or 1762 and in 1764 he started in real earnest. In an idle moment the idea of condensing steam in a separate vessel entered his mind and he immediately set himself to the study of this. He was busy right up to his death in 1819 and a statue now stands to his memory in Westminster Abbey.

Before refreshments were served Dr. Wells addressed a few words to the Club.

ATHLETIC ASSOC.

MAKES ANNOUNCEMENT

Students Must not Play with Outside Teams Unless Expressly Permitted

The Executive of the Athletic Association are taking actions to prevent men from playing with outside teams, without permission.

Mr. H. M. Gillmor played one game with the Montreal Hockey Club last month, shortly after which he wrote a letter to the Executive explaining his action, and stating his willingness to play with McGill the remainder of the season. Under the circumstances, suspension was withheld in this case. Other cases are now before the Executive, a report of which will be made at a later date.

H. L. EDWARDS,
Secretary A. A.

Mr. E. O. Fliter has consented to act as football coach for the Queen's team next fall. With the sincere and hearty co-operation of all the Presbyterians, Mr. Fliter hopes to bring the Tricolor through with a win to her credit.

"Oh my!" she exclaimed impatiently. "We'll be sure to miss the first act. We've been waiting a good many minutes on that mother of mine."

"Hours, I should say," he replied rather tartly.
"Ours?" she cried joyfully. "Oh George, this is so sudden."

Solid Comfort

McGill students will find the Union the only place for comfort during the cold weather.

If you have not already become a member, join now. The Union is the center of all college activities, and solicits the earnest support of every student.

The Michigan Glee Club has been selected this year by Walter Camp, offered a trip to Japan at the expense of the Japanese Government.

The All-American football team, as Carlisle and West Point.

HARRISON FORD AND GERALDINE O'BRIEN IN "EXCUSE ME," AT THE PRINCESS THIS WEEK.

THE EARNING POWER OF COLLEGE MEN

Literary Digest Treats Subject Statistically

That publishing and advertising should rank as the best-paid occupations for young men five years out of college may surprise many eager youths now in the throes of choosing a career. Whether the news will tend to overcrowd this field of endeavor time will tell. But this discovery is the result of an inspection of the five years' record of the Yale class of 1906, compiled by its secretary, Mr. Edwin R. Embree. The results obtained, as we see them presented in the Yale Alumni Weekly (New Haven), "are among the few sets of authentic figures reported anywhere in this country of the annual earnings of a representative class of men." The figures, moreover, represent actual individual earnings, as "the men were asked to exclude from their reported incomes any money received by family allowance or through inherited wealth." Two-thirds of the membership of the class reported in response to the request of the secretary and showed that they "earned on an average \$749 each the first year after graduation, \$968 the second year, \$1,286 the third

OCCUPATION	1st yr	2nd yr	3rd yr	4th yr	5th yr
Finance and Mercantile, including Advertisers, Publishers, Bankers, Brokers, Business Men, Insurance Agents, Manufacturers, and Real-estate Dealers.....	\$ 705	\$1,061	\$1,516	\$1,931	\$2,405
Educational and Religious Workers.....	1,119	1,085	1,236	1,328	1,514
Farmers, Ranchmen, and Foresters.....	893	1,200	1,560	1,471	1,886
Engineers.....	650	942	1,352	1,287	1,702

Journalists.....	660	790	821	920	1,169
Lawyers.....	358	400	609	927	1,245
Musicians.....	750	1,100	1,450	1,700	1,350
Graduate Students.....	487	542	426	447	370

Average for all occupations.....

The figures here tabulated, thinks the writer, "may not show startlingly large incomes," but they "are, on the whole, reassuring to those who are pessimistic about the business ability of college graduates." Further:

"A characteristic feature is the low salaries at which practically all the men seem to have started, and the quite regular and, on the whole, satisfactory manner in which the incomes have increased each year. The average age of the class of 1906 at graduation was 22 years, 10 months and six days. In the fifth year after graduation, therefore, the members of the class were, on the average 27 years old. The fact that the average income for these young men of 27 years was nearly \$1,900 indicates that a college education is at least not a preventative to one's earning a competence.

This compilation of incomes for the class of 1906 is the first one conducted on so thorough a plan in any Yale class. In fact, it is almost unique in college graduate statistics. Some such figures have been compiled by a few classes of other colleges. The Harvard Law School class of 1905, for instance, has compiled statistics showing that in 1907, two years after graduation from law school and in general five years after graduation from college, some 163 members reported incomes averaging \$1,188 per year. This is less than the average of \$1,245 reported for the fifth year after graduation from college by 36 members of Yale 1906. The Harvard Law School class of 1905 showed a remarkable increase in income in the succeeding three years, when in 1910, five years after law school and eight years after college, 151 men reported incomes averaging \$2,616 for the year, an increase of 120 per cent. in annual incomes in the third-year period.

"The incomes of members of the class of '99 of Dartmouth College ten years after graduation were compiled and reported two years ago in Science. Of a class of 100 living members, income reports were received from 67 men, showing an average income for the tenth year after graduation of \$2,097 per man. This figure, commented on as surprisingly large when the report was made in Science, is quite below what the average income of Yale 1906 may be expected to be after five more years, if the men's incomes increase at anything like the rate which has seemed fairly constant for the first five years."

A squad of over one hundred and sixty men are out on the track, trying for places on the Stanford team.

year, \$1,522 the fourth year, and \$1,885 the fifth year." He continues: "Of interest almost equal to that in the general averages for the earnings of the whole class, is that in the average earnings of the men in their various occupations. Results from such occupation groups show that for the last of the five years the advertisers and publishers have earned the most, an average of \$3,600 each for the fifth year after graduation. Insurance agents, brokers, and government employees (including Army and Navy) have followed in order with an average of between \$2,600 and \$2,700. Then in the descending scale comes real estate dealers, manufacturers and farmers, then bankers at \$2,100, business men (mercantile) \$1,950, social and religious workers \$1,800, engineers \$1,700, then school and college teachers and officials, musicians, lawyers, and journalists, with average incomes for the last of the five years descending from \$1,500 to \$1,150. Lowest of all in his scale are graduate students—not earners at all in the accepted sense of the term—who received an average of \$370 during the fifth year after college graduation from fellowships, etc. Grouping these occupations under general related callings, the average earnings for the members of each occupation group for each of the five years is shown in the following table:

	1st yr	2nd yr	3rd yr	4th yr	5th yr
Finance and Mercantile, including Advertisers, Publishers, Bankers, Brokers, Business Men, Insurance Agents, Manufacturers, and Real-estate Dealers.....	\$ 705	\$1,061	\$1,516	\$1,931	\$2,405

ANNUAL REPORT OF UNIVERSITY

The Session under review has brought the University into closer relations than formerly with the Government of Province of Quebec. There was a time when a sharp dividing line seems to have been drawn between school interests on the one hand and those of higher education on the other. But the progress recently made as regards the school question—though, after all, it is only a foretaste of what still remains to be accomplished—and the insistent demand at the same time for higher scientific, technical, and commercial training, are among the factors which have contributed to bring about a fuller recognition of the essential unity and solidarity of the whole problem of education. From the Kindergarten to the Technical High School and the University, it is really one continuous chapter in the story of social evolution, and as such deserves to receive, in all its branches the fullest possible measure of public patronage and support. There are many in Canada who are watching with interest the gradual abandonment of the position that the Federal Government is debarred by constitutional restrictions from associating itself in any way with any form of education. Recent action in connection with an organized scheme of physical training, the establishment of a Naval College, proposals to subsidize agricultural education, and, above all, the appointment of a Royal Commission to investigate and report on the problems of technical, industrial, and commercial training,—all this seems to point to a time when the Dominion Government will take a more active interest than hitherto in those higher institutions which are doing so much, along these and other lines of educational activity, to train the men and women who are to be our future citizens. Meanwhile, as the circumstances of the Province of Quebec are somewhat different from those of the rest of the Dominion, we have all the more reason to be grateful for the help given and promised by the Quebec Legislature to certain departments of our work.

Both the Provincial Government and the City of Montreal have taken a lively interest in the progress of the efforts put forth by the University to secure larger endowments, and it is confidently expected that before long a substantial addition will be made to the "Campaign Fund" in the shape of annual grants both

from the Government at Quebec and from the City Council of Montreal.

Among other honorary degrees conferred in the course of the session were those granted to the Right Hon. Sir Chas. Fitzpatrick, P.C., K.C.M.G., Chief Justice of Canada, on the ground of his high official position and distinguished services, and in special commemoration of his work as a member of the Hague Tribunal of Arbitration; and to George William Parmelee, B.A., D.C.L., Secretary of the Department of Public Instruction, in recognition of his devoted services in the cause of education in the Province of Quebec and of his high standing as an educationist and writer. In connection with the opening of the New Medical Building, honorary degrees were conferred on Dr. Barker, of Johns Hopkins; Dr. Councilman and Dr. Warren, of Harvard; Dr. Lachapelle, of Laval; Dr. Macallum and Dr. Reeve, of Toronto; Dr. Smith, of the University of Pennsylvania; Dr. John Stewart, of Halifax, and Hon. Dr. Young, Provincial Secretary and Minister of Education of the Province of British Columbia. This celebration, which has already been referred to as one of the outstanding events of the session, was marked by a great re-union of medical graduates which had been planned for some time in advance by the Faculty, under the leadership of the late Dr. James Bell, whose untimely and unexpected death brought great sadness to the hearts of all who knew how keenly he had looked forward to the re-union whose success he had done so much to promote. Graduates in Medicine came to Montreal from every part of the continent, and on all sides were heard expressions of warm appreciation of the generosity of the Chancellor in the matter of the new building, and with admiration, not unmixed with envy, of the improved teaching con-

ditions which have fallen to the lot

of the medical student of the present

day. It is in contemplation now to

have a still larger re-union of the

graduates of all the Faculties in

1913, and Professor Evans has been

asked to give his valuable services

as organizing agent. It cannot be

doubted that such gatherings exercise

a healthful influence on the general

spirit of the University and its gradu-

ates, and the Medical Faculty was

fortunate in having so attractive a

feature in its programme as the dedi-

cation of a new building. The high

esteem in which it is held by other

schools of medicine may perhaps best

be evidenced by the text of the ad-

dress presented at Convocation on

behalf of the Provost, Trustees and

Medical Faculty of the University of

Pennsylvania, who offered their

sincere congratulations and earnest

wishes "mindful for many years of

the debt of sympathetic admiration

due from all sister institutions of

the Medical School of McGill Uni-

versity for the excellence of its under-

graduate curriculum, the important

part borne by its staff of instruction

in the progress of medical science,

and the sane and wholesome influence

it has exerted among the profession

in all America."
